2. The following is an examiner's statement of reasons for allowance:

The primary reason for allowance of claims 1-2 is the inclusion of having at least two protrusions projecting from a rotational driving force receiving surface being inclined in a direction opposing a rotational direction, which is found in all of claims 1-2, but not disclosed nor suggested by the prior art of record.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
